

a display step for displaying a screen in accordance with the level  
information of each pixel stored in said memory part.

24. A transmission method for video information according to claim 22,  
characterized in that said communication step is a wireless communication step. --

**REMARKS**

After the foregoing Amendment, claims 1-24 are active in the present application.  
Claim 9 has been amended in order to correct a typographical error. New claims 19-24 have  
been added in order to more particularly point out and distinctly claim the Applicants' invention.  
No new matter has been added to the application by the foregoing Amendment.

Prompt examination and allowance of the application is respectively requested.

Respectfully submitted,

**KAZUO OKAMOTO ET AL.**
